TO WHOM IT MAY CONCERN

This is to certify that Mr JAMES GEORGE MADHLOPE PHILLIPS is personally known to us. His association with our Organisation and the struggle for liberation in South Africa dates as far back as in 1938 when the Non-European United Front was formed in an effort to pool our objections and resources against the Hertzog Bills before Parliament. In 1946 he, together with some of our leaders, was arrested for aiding and abetting a strike called by the African Mineworkers' Union. He was also arrested together with the ANC leadership in 1952 for leading the Defiance of Unjust Laws Campaign. He has figured prominently in various political as well as Trade Union demonstrations.

Our opinion of him is that he is conscientious and hard-working and we do not hesitate to recommend him for what legitimate assistance he may require.
